Re: HST

I recently attended a seminar at Sport BC on the HST. Unfortunately I do not have any definitive answers to most of the questions that you may have. Basically I can tell you that the HST should be treated exactly the same way your club treated the GST.

I have requested that Skate Canada acquire rulings from the Canadian Revenue and Tax Agency on two issues dealing with Adult programming within the clubs and as soon as those rulings are received they will be communicated to you.

I strongly urge every club to ensure that their email address is correct with the Section office in order that future information can be communicated to you electronically.

Sorry that I can't be of more assistance.

Yours
