

**2023/24 Clarification from Technical Committee**

**Question and Answer 2023/24      N° 2**

## **Clarifications on Pair Skating Lifts**

**Question:**

Should there be a GOE reduction of -2 on the take-off of a lift if the woman starts on two feet?

**Answer:**

The reduction should be given if this is a mistake. If the two foot take-off is done as part of a difficult entry no reduction is needed.
