

II. Updated Guidelines for marking +GOE of Single/Pair Skating Elements (positive aspects)

These guidelines are tools to be used together with the minus GOE charts. The final GOE of a performed element is based on the combination of both positive and negative aspects. It is important that the final GOE of an element reflects the positive aspects, as well as any possible reductions that may apply.

The final GOE of an element is calculated considering first the positive aspects of the element that result in a starting GOE for the evaluation. Following that a Judge reduces the GOE according to the guidelines of possible errors and the result is the final GOE of the element.

To establish the starting GOE Judges must take into consideration the bullets for each element.

General recommendations are as follows:

FOR + 1 : 1 bullet
FOR + 4 : 4 bullets

FOR + 2 : 2 bullets
FOR + 5 : 5 or more bullets

FOR + 3 : 3 bullets

FOR + 4 and +5 THE FIRST THREE bullets highlighted in bold must be present

III. Updated Guidelines in establishing GOE for errors in Short Program and Free Skating

Elements with no value are indicated to the Panel of Judges. GOE of such elements does not influence the result. In case of multiple errors the corresponding reductions are added. However in Pair Skating the reduction applied for a mistake of one partner or the **same** mistake by both partners remains the same.
